

Way

Way artificial grass, 12 mm high, available in red, black, or a two-tone gray and black version, is ideal for terraces and event spaces.

Additionally, its UV-resistant fiber treatment provides an exceptional and durable finish, ensuring resistance to the most demanding weather conditions.

Another application of Way artificial grass is its use as a walkway around padel courts, thanks to its textured fibers. You can combine it with your Play Easy artificial grass of the same height.
