

Calima

Garden

Reconnect

Calima is a 25 mm artificial grass with multidirectional fibres, providing a natural and uniform finish across the entire surface. It combines straight fibres, semi-texturised KDK fibres and texturised fibres to deliver a comfortable feel underfoot, good recovery after use and a well-kept appearance in everyday conditions.

It incorporates the Primeback backing, an extra-draining and micro-perforated system that improves water evacuation and enables a more efficient recycling process.

Ideal for gardens, terraces and outdoor spaces seeking natural aesthetics and low maintenance.
