

# Deluxe Garden

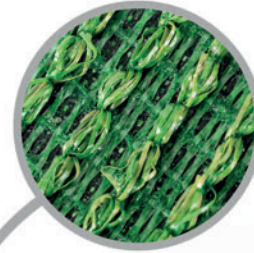

Reconnect

The Deluxe artificial grass model stands out for its exceptional natural appearance, achieved through a combination of more than five multidirectional fibre colours with Look&Feel technology, arranged in at least three fibre heights: straight fibres at 45 mm, semi-texturised KDK fibres at 90% of the pile height, and texturised beige and green fibres.

Manufactured in line with the sustainability standards of our Reconnect collection, this turf features the **Primeback** backing, made from 100% recyclable PE polyolefins. It also incorporates fibres with a flat cross-section and MaxDrain technology, making it the highest-drainage product in the premium range, as well as LongLife technology, which ensures superior durability.
